FREE TRIAL

BACK TO TRAINING
SATURDAY 10 JAN 2026

Could your child be the next Tom Brady, Saquon Barkley, or Micah Parsons? Nuneaton Jaguars are offering three weeks' worth of free sessions to rookie recruits for their flag football team this January as they gear up for another season of success.

Our Club

The Nuneaton Jaguars are a community-focused American Football organisation based in Nuneaton, dedicated to making American football accessible to all. We provide a supportive environment for players across multiple age groups, including Junior Flag (U11, U14, U17), Adult Flag, and Junior Contact teams, promoting skill development, teamwork and sportsmanship.

Our Mission

- Promote American football through inclusive, non-contact flag football.
- Foster local talent with quality coaching and development pathways.
- Encourage community involvement through partnerships and events.
- Create a positive environment for personal growth and success.

Recruitment

We are currently recruiting new players at all ages for our 2026 season, with our first training session taking place on January 10th at Nuneaton Rugby Club. Our Under 11 team is actively looking for players currently in Key Stage 2 (School years 3-6) to join our program. Our current pathway has seen players progress from our Under 11 team to representing Great Britain on both the European and World stage, with current Jags players working hard to be in contention for the 2028 Olympic games and beyond. As a program, we have continued to experience phenomenal success at a national level and look forward to welcoming your child into our team, whatever point of the journey they may be on.
